

# MotelMate is a powerful and easy to use reservation software.

MotelMate integrates with Menumate. Perfectly tailored to enable you to administer and manage your motel every hour of every day.

## INTEGRATED BOOKING MANAGEMENT

An intuitive booking grid gives you an instant overview of all of your past, present and future reservations. Integration with current online booking sites means you can easily maintain an online presence.

## ACCOUNTS & FINANCE

Confidently split invoices and manage group or company bookings with ease. Create, track and send customer or agent invoices, before and after your guests have stayed.

## GUEST & COMPANY DATABASES

Quickly and easily create, edit and search all of your clients records. Retain all important client information, ready for the next time they stay.

## INTELLIGENT REPORTING

Access relevant and easy to understand occupancy and financial reports, outlining every aspect of your motel operation. Automatically create statistics reports.

## PHONE & INTERNET MONITORING

TrafficMate offers you the ability to provide high quality broadband internet to all your customers, while still giving you full control. Track all of your out going phone traffic with PhoneWatch.

## TRAINING & SUPPORT

MotelMate offers a full time 0800 help desk with the capacity for one-on-one online training and support. With an online manual and user forum, its easy to find the information you need, quickly.
